# Airspot

A beautiful combination of lighting with air circulation, heat recovery and cooling.

*Airspot is the most flexible esthetic solution for all types of lighting and ventilation systems. With Airspot heat recovery can be integrated in the light plan and ventilation requirements.*

*Airspot is the ideal solution for beautiful and comfortable living.*

*Airspot supplies air conditioning ceiling vents with integrated luminaires (spot lights), which keep the aesthetic value of the property intact.*

Independent of the chosen lighting systems:

- LED
- Halogen
- switched conventionally or by home automation

Independent of the chosen ventilation system:

- Waste Heat Recovery
- Air extraction system only
- Peak cooling

Can be used independently of the brand of the ventilation box and with all tube systems:

- Spiral tube
- Underfloor air distribution
- Flat plastic tubes and flexible ducts

# Airspot

For newly built as well as renovation projects

*Airspot can be integrated into newly build houses as well as existing buildings. Airspot is available for both trimless and framed solutions. Airspot is independent of the chosen air duct systems*

*Before the concrete floor is poured:*

- a polystyrene block or the spot box adaptor is positioned at the location of the spot.
- all ducts are connected to the spot box locations. Small corrections on the final spot location can be made after the concrete had hardened.
- electricity wiring is supplied to the spot box.

*Dropped ceilings*

- spot boxes are attached to the ceiling construction.
- ducts are connected to the spot boxes.
- electricity wiring is supplied to the spot box.

# Airspot

Showing true colours

The spots are produced in two types of materials: Stainless steel 316 or aluminium. All spots are available in different colour combinations. With a variety in look and feel from classic to modern, it can be combined with every interior.

Stainless Steel 316 is a high grade material and is offered in luxury coloured PVD coatings; see the color samples  
Also delivered in real gold [EC 20] and champagne gold [EC 21]

\*Aluminum spots are available in six colours: black, silver, anthracite grey, gold, red and blue.

\*Airspot can be powder coated in all RAL colours.

\*Colour deviations subject to
